

CARPRO 2 DAYS. ADVANCED

This training course aims at the evaluation of the level of competence for the application of protective films; application techniques; capability to respond to a customer's request for the application of CARPROTECT film. It will give the trainees all the "tips" regarding how to optimize the handling of CARPROTECT films.

Duration:

2 days, as often as required

Maximum number of participants:

12 per trainer

6 per car maximum

Programme:

- + Tools and accessories
- + Preparation of the vehicle
- + Definition of areas to be protected
- + Analysis of target surface
- + Application techniques specific to CARPROTECT
- + Forming techniques
- + Cutting film to the right size
- + Finishing

Training sessions are not to be used for full-wrap purposes. The trainer will remove all film from the cars at the end of the session.

Practice (min. 1.5 days)

On the first day, trainees will begin applying specific parts and learn the appropriate movements. The second day will be dedicated to practice. The knowledge and experience gathered during the 2 days is essential to perform a complete CARPROTECTION.

After the course, every participant will receive a certificate of attendance.
