

# SOLAR FILMS

## AUTOMOTIVE 2 DAYS.

This training course is intended for companies active in the field of car wrapping and decoration. It focuses on application techniques, tools required, the handling of the films and on the presentation of films specially designed for vehicles.

### Duration:

2 days, as often as required

### Maximum number of participants:

12 per trainer

6 per car maximum

### Programme:

- + Presentation of the solar films range
- + Tools and accessories
- + Various application techniques depending on the shape and on the rubber seal
- + Forming techniques (on windows, rear quarter windows, rear curved windows)
- + Cleaning methods
- + Application techniques depending on various parameters
- + Cutting techniques
- + Finishing

After the course, every participant will receive a certificate of attendance.

Training sessions are not to be used for full-wrap purposes. The trainer will remove all film from the cars at the end of the session.
